# 1st DAY OF TREATMENT

**STARTS after your medical consultation** with hydrotherapy doctor. Medical offices are located at the "Residence des Thermes", 200m from the Center.

During this first consultation, you can provide all documents related to your medical condition (letter from your referring doctor, analysis, list of your medications ...). The doctor will prescribe your hydrotherapy treatment depending on the programme chosen.

Choosing your hydrotherapy doctor is a personal decision from the patient. **The fees for medical consultation are to be paid directly to the doctor (\*)**. They include medical monitoring and filiform shower sessions.

After this consultation, you may come directly to the Center's reception for final registration, schedule and to start your treatment sessions.

(\*) Except for Sensicure
